

History of Cuba's Guantanamo Bay (GITMO)

With a Power Point presentation, Mr. McMillan examines the history of Guantanamo Bay from its discovery in 1494 by Christopher Columbus through its early use as a Naval Base by the United States to the current issues involving "GITMO" as a prison for terrorists bent on destroying the United States.

The presentation also covers other current issues involving "Water Boarding", Miranda Rights for Muslim terrorists, and whether trials for the 9/11 attacks should be conducted in New York City. In addition, he outlines his visit to Guantanamo while Counsel to Senator Kenneth B. Keating and the resulting evolution of the Cuban Missile Crisis.
